

# CMAA RCEP Master Slide

In order for attendees to receive CEUs, the following three slides must either be incorporated into the presentation or read aloud during the presentation.

(This slide does not need to be displayed for credit)

***“CMAA has met the standards and requirements of the Registered Continuing Education Program. Credit earned on completion of this program will be reported to RCEP at RCEP.net. A certificate of completion will be issued to each participant. As such, it does not include content that may be deemed or construed to be an approval or endorsement by the RCEP.”***

**REGISTERED CONTINUING EDUCATION PROGRAM**

# **P-130, Mechanical & Electrical Improvements Tunnel Project Walter Reed National Military Medical Center, Bethesda, MD**

1. Recommend best practices used for construction of mechanical and electrical improvements
2. Illustrate the challenges during design and construction
3. Identify the different materials used and the benefits of those materials
4. Understand the extensive logistical support required when improving mechanical and electrical systems in a built environment

# Questions?
