AWARDS & INAUGURATION LUNCHEON

The Washington Post begins 2003 with an Awards & Inauguration Luncheon honoring our outstanding individual members and sustaining member firms, as well as welcoming the new Washington Post Officers. Nominations for the awards were solicited from members of the Washington Post and the Military Services.

Join us in recognizing new individuals and sustaining members whose contributions are crucial to the success of the Washington Post.

Distinguished Service to the Washington Post:

Ms. Rose M. Dela Vega - RTKL
Maj Nam N. M. Shelton - US Air Force
ARCADIS

Sustaining Member of the Year:

Outstanding Contributions to the Engineering Profession:

Mr. George Franklin - US Air Force
Dr. Arthur H. Wu - US Navy

Outstanding Contributions to Architecture:

Outstanding Contributions by a Young Military Member:

Mr. David V. Thompson - RTKL
LTJG Craig R. Foos - US Coast Guard
LT Miguel Dieguez - US Navy

Outstanding Contributions by a Young Civilian Member:

Tracy A. Knott - ECS, Ltd.

REGISTRATION FORM

SPACE IS LIMITED - PLEASE SIGN UP EARLY!

Date: Thursday, 23 January 2003
Location: The Army and Navy Club

901 17th Street, NW
Washington, DC 20006
Farragut West or Farragut North metro stop

Cost: \$20 Young Member / Military / Government
\$30 Member
\$40 Non Member

Time: 1100 Registration
1130 Lunch
1200 - 1330 Awards & Inauguration Presentations

PLEASE CALL OR FAX RESERVATION FORM TO: SAME Reservations. Phone (703) 317-6275 or FAX (703) 960-9125. Bring check to event or mail to: SAME Washington Post, PO Box 16256, Arlington, VA 22215

“Colonel’s Two Bits”

COL MICHAEL J. WALSH

Greetings fellow members of the Washington Post of the Society of American Military Engineers! It is my honor to help lead our organization as your newly elected Post President. I'd like to first congratulate and thank my predecessor, Ms. Rose Dela Vega, and all of the former officers and board members for their hard work, dedication, and initiative over the past year. Well Done! It has been a challenging year and you have all worked hard to exceed the standards and the needs of our members.

I will do my best, along with this year's leadership team, to sustain and improve upon the successes from the previous years, and will build upon our Post's reputation. My goal as your President is to foster our Society's purpose. SAME brings together professional engineers and those in engineering fields to promote sound relationships, in both the public and private sectors; to develop a spirit of mutual understanding and cooperation among engineers of the uniformed services; to advance the knowledge of federal engineering, and assure that the latest advancements in engineering technology are understood, practiced, and shared with industry; and to preserve the memory of the services rendered by the engineering profession during contingency operations and wars fought by the United States. Proud Heritage, Promising Future!

Now, more than ever, the Society has an unprecedented opportunity to further emerge as a national leader in a number of areas critical to America. Key needs now include how to address the security requirements for the built environment and revitalize the nation's infrastructure. Also a key need is the growth, recruitment, and development of young engineers and those in engineering

fields. We can and must engage these needs with our leadership so, engage in the dialogue, communicate your ideas, and work as a team. Engage in solutions through growth - recruit new members to our Post and mentor young leaders through a mentor-protégé program.

Your active participation, no, *your engagement* in these areas will help sustain our post's performance and reputation, as well as its value to you personally, your firm, and the nation.

Once again, thank you for your vote of confidence in electing me as your Post President. I will do my best to provide you with enthusiastic leadership and direction to our post. I look forward to serving you in the upcoming year. Help me spread the word - ENGAGE!

COL Michael J. Walsh
