As President of the Washington DC Post I am in awe of the incredible commitment of our members to our Post, Society, industries, and to our nation. I am honored to serve in this position and am thrilled to work with such a dedicated group of volunteers and responsive members. It has been very exciting to introduce many new members to our Post and our Society, welcome new Post Sponsors, meet new challenges and opportunities, and try to exceed your expectations.

The DC Post received fantastic response to our 2006 Corporate Sponsorship Drive. Eleven new Sponsors have joined in the last month, bringing our total this year to an impressive fourteen Corporate Sponsors. Each Corporate Sponsor will have a featured Firm Spotlight posted to our Web Site at [www.sameDCpost.org/sponsors](http://www.sameDCpost.org/sponsors) and will appear in one of our newsletter issues.

Your outstanding response comes at a critical time helping our Post offset the loss of membership dues due to the upcoming re-allocation of national SAME membership dues. Your Corporate Sponsorship helps us maintain the quality of our programs. Thank you!

A very exciting event is coming up in just a few months. Your DC Post Board of Directors accepted my challenge to raise the level of awareness of our Scholarship Program and increase our Scholarship giving by approving the Washington DC Post Inaugural Scholars & Honors Gala, to be held at the Grand Ballroom of the historic Mayflower Hotel in Washington DC on September 30, 2006. I am truly pleased and honored to be working with an unbelievable group of private and public sector committee members who are organizing this event. Please visit our Gala Web page for additional information at [www.sameDCpost.org/scholarship\\_gala.html](http://www.sameDCpost.org/scholarship_gala.html)

Scholars & Honors Gala Highlights include:

- A new Scholarship that A. Morton Thomas & Associates Inc. will endow in honor of Murphy Tuomey - a tireless SAME volunteer. Many of you know of Murphy's diligent pursuit of SAME Scholarship funds and her many other SAME activities. Donations to the Murphy Tuomey/AMT Scholarship Fund are being accepted. Please visit our Web Site at [www.sameDCpost.org/scholarship\\_gala](http://www.sameDCpost.org/scholarship_gala)
- Gala Entertainment will be provided by Escapade - a fantastic entertainment group for all generations. [www.Escapadeband.com](http://www.Escapadeband.com)
- Raffle Drawings will include, for example, two tickets to anywhere in the U.S., donated by Southwest Airlines.
- Reduced Mayflower Hotel room rates at \$169+tax. \*The Room Block is open so contact the Hotel ASAP and mention the SAME Gala.
- Recognition of Honored Guests, Service Chiefs, Murphy Tuomey, and our 50-Year SAME Members. Several Service Chiefs have already accepted including LTG Strock and RADM Barror.

In other news, thanks to all who participated, sponsored and volunteered, and braved the downpours, at the Annual Scholarship Golf Tournament at Andrews AFB. The Washington DC Post, with your support, raised over \$21K for our Scholarship Program! This is a new record fundraising amount and we Thank You! Your contributions help us achieve our new goals to award more students with Scholarships and increase the value of each Scholarship awarded. Many thanks to James Peck of McDonough Bolyard Peck (MBP), our Golf Tournament Chair, and to MBP for their incredible support of time and commitment to this effort.

*Cont. Pg. 2*

### Post President's Message (Cont. from Pg. 1)

Also, a note on the results of the SAME Washington DC Post and Northern Virginia Post Joint 2011 SAME National Conference proposal submission, that was planned to be held at the Gaylord Resort and Spa at the newly built National Harbor. Despite an incredible effort by our Joint Post

Conference Committee, an excellent conference proposal and interview, we were not selected to host the national conference in 2011. There are many people to thank and extend our appreciation to for this colossal effort. One individual who deserves a special thanks is Donna Vereb of URS, for her outstanding proposal leadership. We greatly appreciate URS Corporation for donating their staff and funding to produce this proposal. A personal thanks to Jim Donahue, Tom Delaney and the Northern Virginia Post for their intensive involvement and the experienced guidance they provided in support of the 2011 proposal team.

Looking ahead, the Washington DC Post and the Northern Virginia Post will consider whether or not we will submit a SAME national conference proposal in 2007 for the 2012 national conference. We'll keep you posted!

In closing, I am very proud to be part of so much support, enthusiasm and commitment to excellence by our members, our community, and our friends in support of the mission of this noble organization.

We have an exciting lineup of programs and speakers this summer, and the fall will bring our Scholars & Honors Gala Dinner Dance at the Mayflower on 30 September, and our Annual Federal Opportunities Conference in October.

We thank you for your continued support and look forward to seeing you at future SAME Washington DC Post programs. Have a safe summer.

**Michael Pavlides**  
2006 Post President  
SAME Washington DC Post

## D.C. MEGA PROJECTS: National Harbor, Hangar at Quantico, and the Patent and Trade Office (May Program Spotlight)

The SAME Washington DC Post DC **Mega Projects** program was held on 23 May 2006 at the Conference Center Washington Navy Yard, in Washington DC, with over 70 SAME members and guests in attendance. This was an excellent program that showcased the planning and construction of a number of our area's largest projects.

Bob Priest gave an excellent presentation on the Aircraft Maintenance Hangar Complex for HMX-1 at Quantico Marine Corps Base.

Howard Jensen gave a fantastic presentation on the Design and Construction of the National Harbor Project on the Potomac River.

#### Speakers:

**Howard Jensen**, Vice President, The Peterson Companies.

**Bob Priest**, P.E., DBIA, Principal Associate, Regional Market Director for HSMM.

**Ed Feiner**, AIA, F.SAME, Skidmore, Owings & Merrill LLP.

**Rod Garrett**, AIA, Skidmore, Owings & Merrill LLP.

And Ed Feiner, and Rod Garrett gave a first-rate presentation on the Patent and Trade Office in Alexandria VA.

Heather Wishart Shriner accepted a SAME Washington DC Post Sustaining Member Recognition for Carter & Burgess Inc. from Mike Pavlides, Post President.

Each Speaker received a SAME Washington DC Post coin, presented by the Post President. Many thanks to our speakers who prepared and presented such excellent presentations. Thank you!

## SAME Washington DC Post Sustaining & Individual Members

The SAME Washington DC Post strives each year to provide our members with excellent membership benefits and first-rate networking opportunities. We hope the programs you attend and the networking opportunities you participate in at our Post are of value, and the resources and communications tools are useful. We take a moment here to thank over 140 Sustaining Members and over 800 Individual Members.

**Thank you for your continued support!!!**

### Stanley Consultants Establishes Baton Rouge Office

Stanley Consultants is pleased to announce the opening of a new office in Louisiana. The Baton Rouge office offers engineering, environmental and construction management services to federal, state and municipal clients in the transportation, water resources and water/wastewater markets. With 15 domestic offices and several international offices, Stanley Consultants is ranked as one of the country's leading engineering firms. As such, the Baton Rouge office has access to the company's full spectrum of services.

**BRANT RICHARD**  
P.E., Office Manager,  
Baton Rouge,  
Louisiana office,  
Stanley Consultants

The office is managed by Brant B. Richard, P.E. A Louisiana native, he has over 17 years of project management and business development experience. Brant has a Bachelor of Science in Civil Engineering from Louisiana State University, and is the President Elect of the Baton Rouge Chapter of the American Society of Civil Engineers.

Stanley Consultants has several clients in the Louisiana area, and is currently providing program management service to the U.S. Army Corps of Engineers to rebuild New Orleans' hurricane protection system. "I'm excited about the opportunities available in this area with the Louisiana Department of Transportation and Development (LDOTD) as well as the City of Baton Rouge. A local office will help us better serve our clients," says Richard.

Established in 1913, Stanley Consultants has served federal, state and municipal clients for decades. In 2005, AARP named Stanley Consultants the country's Best Employer for Workers over 50.

The Baton Rouge office is located at: 300 St. Charles Street, P.O. Box 5095, Baton Rouge, Louisiana 70821, 225-387-2422 / 225-387-2423 fax / RichardBrant@stanleygroup.com / [www.stanleyconsultants.com](http://www.stanleyconsultants.com)

Stanley Consultants, Inc., a Stanley Group Company, provides engineering, environmental, and construction services worldwide. Offices are located in Austin, Texas; Baton Rouge, Louisiana; Boise, Idaho; Chicago, Illinois; Denver, Colorado; Des Moines, Muscatine, and Iowa City, Iowa; Las Vegas, Nevada; Minneapolis, Minnesota; Naples and West Palm Beach, Florida; Phoenix, Arizona; Salt Lake City, Utah; and San Juan, Puerto Rico, as well as select international locations. Since 1913, The Stanley Group has successfully completed more than 23,000 engagements in all 50 states, U.S. territories, and in 98 countries.

### HNTB Hires Southeast Division Federal Market Sector Leader

HNTB Federal Services Corporation has hired Joe LaVoie as Vice President and Southeast Division Federal Market Sector Leader. Mr. LaVoie will lead a team of engineering, planning and architecture professionals in providing enhanced services to federal government clients throughout the southeast United States including Florida, Georgia, Alabama, South Carolina, North Carolina, West Virginia, Virginia, Maryland, and Washington, D.C.

He joins HNTB after serving 27 years as a Department of the Army civilian and senior business development executive in an *Engineering News Record* Top 50 engineering firm. His experience includes senior engineering leadership in developing and implementing a wide range of major planning, engineering, construction and environmental programs throughout the federal government, worldwide.

LaVoie received his Bachelor of Science in Civil Engineering from Texas A&M University. He is a Fellow of the Society of American Military Engineers and a member of the Army Engineer Association and the Society for Marketing Professional Services.

HNTB Federal Services is a wholly owned subsidiary of the HNTB Companies, an employee-owned organization of infrastructure firms known and respected for work in transportation, bridges, aviation, architecture and urban design and planning. HNTB Federal Services draws on the resources of HNTB Companies subsidiaries, HNTB Corporation and HNTB Architecture, Inc., to provide federal-sector clients diverse services, including civil engineering, security planning and military facility design on a national and international basis. For more information about HNTB Federal Services Corporation visit [www.hntb.com/federal](http://www.hntb.com/federal)

# SAME Washington DC Post 2006-2007 Corporate Sponsorship Drive

The SAME Washington DC Post invites DC Post sustaining members to become 2006-2007 Corporate Sponsors. Corporate sponsorship supports our scholarship and education programs. In February 2006 we awarded \$15,000 in university and college scholarships to engineering, architecture and environmental students in the DC region. We plan an ambitious expansion of our Scholarship Program but can only do so with your involvement and sponsorship support. Please consider becoming a 2006-2007 Corporate Sponsor.

## SAME Washington DC Post 2006-2007 Corporate Sponsor Benefits:

- Company description and logo appear on the Web Site for 12 months
- A "Spotlight" article on your firm in our newsletter and on our web site
- An opportunity to introduce your firm to attendees at a SAME DC Post lunch meeting
- Invitation to sit at the Post President's Reserved Table with our speakers at a meeting
- Sponsorship and plaque recognition at our 2006 Awards Luncheon in January 2007
- Discounted hole sponsorship at an Annual Scholarship Golf Tournament
- Discount on table sponsorship at our Scholars & Honors Gala at the Mayflower Hotel (see next page for additional information)

## SAME Washington DC Post 2006-2007 Current Corporate Sponsors

THANK YOU!

**FIRM SPOTLIGHTS:** Visit our Web Site for these Corporate Sponsor Firm Spotlights at [www.sameDCpost.org/sponsors](http://www.sameDCpost.org/sponsors) or read them in this or upcoming newsletter issues. [Firm Spotlights posted as they are received.]

SAME National has announced changes to dues to enhance membership. As the largest membership SAME Post this plan has an adverse impact on the financial allocation received by our Post.

**Therefore, WE NEED YOUR HELP - through our 2006-2007 Corporate Sponsorship Drive - to maintain and enhance our legacy of scholarship funding for:**

- University and college educational scholarships
- Sponsorship of high school students to attend SAME Engineering Construction Camps
- K-12 programs such as active participation with *Project Lead The Way* and *National Engineers Week*
- Construction project tours and site visits

Our 12-month corporate sponsorship is \$1,000. Visit our Web site for additional information at [www.sameDCpost.org](http://www.sameDCpost.org)

## SAME Washington DC Post SCHOLARS & HONORS GALA

The SAME Washington DC Post is pleased to announce that **REGISTRATION & SPONSORSHIPS Now Open** to sign up for the SAME Washington DC Post Scholars & Honors Gala - being organized to raise funds for the SAME Washington DC Post Scholarship Program.

Awarding scholarships is part of our mission and we hope to continue to grow our scholarship program. With your support we will be able to award deserving College and University students in our area with more scholarships in the years to come.

The SAME Washington DC Post Scholars & Honors Gala Dinner Dance will be held on Saturday, 30 September 2006 at the Mayflower Renaissance Hotel in Washington DC.

### GALA Sneak-Preview:

- This historic hotel is located in downtown Washington DC
  - The hotel has beautiful Renaissance Decor with Modern Accents
  - There is easy access to the Metro and there is ample valet parking
  - A block of rooms is reserved by the SAME Washington DC Post
  - Hors d'oeuvres will be served in the State Room
  - Cocktails are scheduled for 6 PM
  - Dinner will be served in the Grand Ballroom
  - Entertainment will be provided by Escapade
  - Dinner will begin at 7 PM
  - Special Murphy Tuomey/AMT new Scholarship Endowment Recognition
  - Special Recognition of Honored Guests, Service Chiefs, our SAME 50-year Members and Murphy Tuomey
  - Dancing is scheduled to take place till 12 AM

We hope this event will be a success that we will be able to bring to you each year. We also hope that this memorable and entertaining event will give you the opportunity to join your fellow SAME members in a positive atmosphere that is aimed to raise funds for a worthy cause - the SAME Washington DC Post Scholarship Program.

Please join your fellow SAME members and guests for a spectacular event and help us raise funds for our Scholarship Program.

For additional information please visit our Scholars & Honors Web Page at [www.sameDCpost.org/scholarship\\_GALA.html](http://www.sameDCpost.org/scholarship_GALA.html)

We thank you in advance for your continued support in our professional and educational programs. We are proud to continue an uninterrupted legacy of excellent programs at the highest level of protocol for our members. Our resolve is strong and unwavering.

## Corporate Sponsor Firm Spotlight

ARCADIS is a global network of business professionals that provides project management, consultancy and engineering services to enhance mobility, sustainability and quality of life. ARCADIS develops, designs, implements, maintains and operates projects for companies and governments. With 10,000 employees and \$1 billion in gross revenue the company is multi-nationally present with a close-knit local network.

Expertise and experience are of international significance. We are focused on providing added value to clients

We understand your business

At ARCADIS, we imagine, create and develop sustainable solutions to a myriad of business, financial and environmental issues. Our clients rely on us to be there, time and time again, when challenges to their continued success confront them. We focus on the details so they can focus on the results.

ARCADIS is dedicated to the enhancement of the built and natural environment while creating exceptional value for our clients, shareholders, employees and communities.

We believe in the entrepreneurial spirit - organizing, managing, and assuming the risk of an enterprise. In integrity - being conscientious and true to yourself. In agility - being quick, clever and resourceful. In excellence - being consistently superior. And we believe in openness-being accessible, receptive and communicative. Our core values are behavioral principles that become the foundation for our ambitions, decisions, and actions. They differentiate our company from the rest. We get results because we live them.

Full-service global service capabilities with local focus.

ARCADIS is an international company that delivers consulting, engineering and project management services for infrastructure, environment and facilities. Focused on mobility, sustainability and quality of life.

We have home market positions in Europe, the United States and South America and know the local conditions. Local presence, combined with extensive experience and fresh perspectives, enables us to offer unique integrated solutions. From feasibility studies, design, engineering, project and process management to implementation and maintenance, as well as associated legal and financial services. Practical and feasible solutions. Think and act. We have a clear vision of developments in society and work together with our clients to redefine the realities of today. To be prepared for the future. ARCADIS looks ahead. Imagines. Develops. Delivers results.

## Corporate Sponsor Firm Spotlight

Jacobs Engineering has a long, proud history of serving all branches of the United States Military and the Federal Government. The company now has over 40,000 employees and revenues exceeding \$6.0 billion, supporting clients through a network of 70 offices in over a dozen countries. Jacobs has operations in North America, the United Kingdom, Europe, India, Australia, and Asia. They have managed multimillion dollar capital expansion programs for FAA, IRS, GSA, DOD, USPS, and other Federal clients.

**Services:** Jacobs provides technical, professional, and construction services, including:

- Planning & Programming
- Engineering Design
- Construction Management
- Hazardous Waste Management
- Architectural Design
- Program & Project Management
- Operations & Maintenance
- Design/Build

Jacobs is considered the best managed company in the Architectural / Engineering industry, having been named Fortune Magazine's Most Admired Company for the last 4 years (2003-2006). They are continually ranked among the top five design and construction management (CM) firms. Their consistent, quality performance has resulted in many satisfied clients - more than 90% of their business is from repeat clients.

**Federal Clients** include:

- Administrative Office of the U.S. Courts
- Architect of the Capitol
- Department of Agriculture
- Department of Energy
- Department of State
- Department of Transportation
- Environmental Protection Agency
- Federal Aviation Agency
- Federal Bureau of Prisons
- Federal Transit Administration
- General Services Administration
- Internal Revenue Service
- NASA
- National Archives & Records Administration
- National Geospatial-Intelligence Agency
- National Institutes of Health
- U.S. Air Force
- U.S. Army Corps of Engineers
- U.S. Coast Guard
- U.S. Navy
- U.S. Marine Corps

### Selected Work

#### *A/E Services, National Guard Bureau*

Jacobs' experience with the National Guard Bureau dates back 20 years. Today, they provide **Planning and Design** services in support of the NGB's mission throughout the U.S. and its territories through an IDIQ contract that serves the Army National Guard and Air National Guard. Jacobs has performed work for the National Guard in 32 states and two U.S. territories. Services include: A/E Design Services; PPDC, Design Charrettes; Final Design; Physical Facilities Analysis; Construction Monitoring; Safety, Security and Risk Analysis; Special Technical and Supplemental Studies.

#### *CA ARNG Joint Division HQ & Joint Forces Training Base, Los Alamitos, CA*

Jacobs provided planning and 35% design services for the 259,988 GSF Joint Division Headquarters, a unique project that brings together three distinct military entities under one roof: the CA ARNG 40th Infantry Division Command; the US Army Reserve (USAR) 63rd Regional Support Command; and the Post Detachment Three-State Area Command. The headquarters encompasses a 4-story Main Command Building; an Assembly Hall; a Physical Training Pavilion; and a Service/Support Building. The project was designed for Silver LEED certification. Force Protection measures were designed into the facility in accordance with the DoD Anti-Terrorist/Force Protection Manual.

Cont. on Pg. 9

## Jacobs Firm Spotlight (Cont.)

### *Florida Army National Guard Regional Training Institute (RTI) at Camp Blanding, FL*

Jacobs provided Project Planning Document Charrette (PPDC) services, as well as follow-on A-E design services for the new construction of the 282,925 SF facility. The RTI will be a modern educational facility, which will provide classrooms, housing, and dining facilities for up to 408 authorized students and 96 authorized personnel.

### **Construction Management, U.S. Marine Corps Heritage Foundation**

#### *U.S. Marine Corps Museum, Quantico, VA*

Jacobs is providing project/construction management services during design and construction of this significant project for the Marine Corps Heritage Foundation. The project is currently 85% complete. Located in a woodland area off Interstate 95, just south of Washington DC, the museum is a dramatic, 230,000-SF facility that will include multimedia exhibit galleries; a large-screen, state-of-the-art theater, and classroom, restaurant, gift shop, and office spaces. An asymmetrical, cone-shaped, monumental skylight starting 45 feet above the finished floor and extending to a point 150 feet above the 18,000-square-foot central gallery is a focal point. The museum not only provides the Corps with the opportunity to consolidate its 60,000-plus artifacts, documents, and other memorabilia, it will help the public understand the role of the Marines throughout history and in the world today.

Through interactive, immersive exhibits, visitors will experience some of the most important and dramatic chapters of Marine Corps history.

Green architecture is a forefront element of this project, including earth berms reducing thermal load variations; a green roof system over exhibit galleries; a water-use-reducing irrigation system and plumbing fixtures; a water side economizer during cold weather that uses a cooling tower without chillers; a rotary enthalpy heat exchanger to precondition outside air by transferring energy from the exhaust air stream to the entering air stream; and daylit atrium, offices, and cafeteria.

#### *A-E Services, Federal Aviation Agency*

Jacobs has provided ongoing services to FAA for 15 years, including renovations, expansions, and new facilities for some of the nation's most critical infrastructure. They perform A/E Design and Design/Build services for terminal radar approach control facilities (TRACONs), air route traffic control center (ARTCCs), air traffic control towers (ATCTs), and other FAA-owned facilities. Projects often involve facilities that must remain operational 24 hours a day, seven days a week.

#### *Phoenix Sky Harbor International Airport - Air Traffic Control Tower (ATCT) & Terminal Radar Control (TRACON).*

Jacobs is providing design-build services for the new 320-ft. tower that will provide air traffic controllers with unobstructed views of the entire airfield, and permit visual and electronic monitoring of takeoffs, landings, and ground movement of aircraft. The design of the 850 SF cab allows for three feet of space between the rear of the controller consoles and the tower's exterior walls, which will allow maintenance and repair access to equipment without disturbance to air traffic operations. The new 50,000 SF TRACON will enhance controllers' ability to monitor and control aircraft as they approach or depart the airport area. The TRACON features FAA's new Standard Terminal Automation Replacement System.

#### *Air Traffic Control Tower – Dulles International Airport*

Jacobs provided A/E design services for a new 300 ft. air traffic control tower (ATCT) and 16,000 SF base building at Washington Dulles International Airport. The facility has been designed to meet the needs for future runways and extensions, security and sound control requirements and for connection to the future midfield terminal.

The tower is a design unique to the airport. It comprises a concrete shaft with precast at the junction levels. The junction levels contain break rooms, offices, and mechanical/electrical rooms. The tower meets design criteria for having two exit stairs that extend from ground exits to the floor below the tower cab.

[www.jacobs.com](http://www.jacobs.com)

## Corporate Sponsor Firm Spotlight

In business for over 50 years, **Grunley Construction Company, Inc.** is a large construction contractor that provides General Contracting, Design-Build, and Construction Management “at risk,” services in and around the Washington, DC region. The firm is ranked as the fifth largest interior construction firm in metropolitan Washington and *Engineering News Record* has ranked it among the “Top 400” contractors in the nation. Most often Grunley Construction is recognized for its extensive

background in managing complex federal renovations, many of which involve historic, occupied and secure structures.

### CLIENTS

- U.S. Army Corps of Engineers
- U.S. Naval Facilities Engineering Command
- U.S. Department of the Air Force
- U.S. General Services Admin
- Architect of the Capitol
- U.S. Department of Agriculture
- U.S. Department of the Treasury
- Quasi-Governmental Agencies
- City and Local Government Agencies
- Private Developers

### MAJOR PROJECTS UNDERWAY

#### **U.S. Capitol Visitor Center - Interior Fit-out of House and Senate Expansion Space**

Grunley Construction is fitting out 170,000 SF of House and Senate expansion space inside the new three-level U.S. Capitol Visitor Center (CVC). The new space, although it lies adjacent to the visitor center facilities, will be separated by secure corridors and will subsequently be open to Congressional representatives and their staff. Once completed, the new space will feature hearing/meeting rooms; TV- and radio-studios; and state-of-the-art media infrastructure for both the U.S. House of Representatives and the Senate.

#### **Eisenhower Executive Office Building Phase I and II Modernizations**

Grunley Construction is currently modernizing several wings within the EEOB building using the design/build approach. The EEOB building is a National Historic Landmark that provides office space for approximately 1,500 Federal workers, including the Office of the Vice President. The building remains occupied throughout the construction process. Work includes:

- Install new mechanical, electrical and fire/life safety systems.
- Renovate of North and South Courtyards.
- Restore select historic elements.
- Abate hazardous materials.

#### **U.S. Department of the Interior Headquarters Building Modernization**

The firm is modernizing the third wing within the historic DOI Headquarters Building in Washington, DC. The Option 2 Modification contract involves 200,000 SF of building space within Wing 4. The scope includes:

- Perform hazardous material abatement to include the central plant, mechanical level, and typical office space.
- Modernize mechanical, electrical, plumbing, and fire protection systems serving seven floors, as well as main corridors, the basement and garage areas.
- Install new interior and exterior egress stairs on the east and west sides of the building.
- Renovate office space and bathrooms, including historic hardware and fixtures.
- Restore window frames and replace sashes on all floors.
- Renovate four passenger elevators and two freight elevators.

Shaw Environmental & Infrastructure, Inc.

## Corporate Sponsor Firm Spotlight

*Shaw Environmental & Infrastructure, Inc.* (Shaw E & I) is a leading provider of consulting, engineering, design, construction, remediation, and facilities management services to government and private sector clients in the environmental, infrastructure, and emergency response markets. Through consistent and constant application of proven safety and quality programs, effective project management processes and procedures, and solution-oriented services, Shaw E & I creates a powerful continuity for our clients that yield benefits in cost savings, quality, and safety.

Shaw E & I is a division of The Shaw Group Inc. (Shaw), headquartered in Baton Rouge, Louisiana. Formed in 1987, the company has grown to over 22,000 employees with over 170 offices and locations worldwide. Shaw is one of the world's largest vertically-integrated providers of technology, engineering, design, construction, environmental, infrastructure, fabrication and manufacturing services.

*Services:* Shaw E & I offers our Federal clients a world of solutions through the following services:

- Design & Construction
- Emergency Management & Response
- Facilities Management
- Logistics & Contingency Operations
- Remediation & Environmental Services

*Ribbon cutting ceremony held at the Southern University at New Orleans campus.*

*Shaw safely completes Linde site utility tunnel replacement.*

### *Project Highlights*

The following projects highlight Shaw E & I's expertise in our five major service areas.

#### *Design & Construction – Joint Aviation Helicopter Maintenance Facility at Kabul International Airport, Kabul, Afghanistan*

As the prime contractor to USACE Afghanistan Engineering District, Shaw E & I is responsible for design, procurement, construction, and all aspects of quality, safety, security, and life support/logistics for the Joint Aviation Helicopter Maintenance Facility at Kabul International Airport. Setting up security procedures, coordinating the delivery of supplies, and hiring local subcontractors all while working in a hostile environment are just a few of the challenges posed during this project. Shaw E & I has established relationships with several companies to provide logistics control, and has hired and trained more than 50 Afghan nationals to support the construction effort. The 23,200 sq. ft. facility which includes several buildings, two helicopter maintenance hangars, and two warehouses is scheduled to be completed by late 2006.

#### *Emergency Management & Response – Temporary Modular Buildings, New Orleans, LA*

In the aftermath of Hurricane Katrina, many buildings were damaged by wind and flood waters and were rendered unusable. Shaw E & I quickly responded to the needs of multiple organizations by delivering and installing 64 temporary modular units in over 10 different locations. These fully functional and specifically tailored units allowed for the various organizations to resume their business while awaiting repairs on hurricane damaged buildings.

### *Facilities Management – Stennis Space Center, Mississippi*

Partnered with Mississippi Space Services (MSS), Shaw E & I provides site-wide facility maintenance and operations services to NASA's John C. Stennis Space Center (Stennis). Our individual responsibility at Stennis is for HV electrical distribution and providing emergency back-up power, engineering, and maintenance for the rocket engine test facilities to include machine and welding shops. Shaw E & I also offers services in plant operations; facilities maintenance and repair; maintenance, communications, vehicle and general support equipment repair.

### *Logistics & Contingency Operations – Fort Benning Base Operations Support, Georgia*

Shaw E & I provides all logistics support and public works services at Fort Benning. At this large DoD installation, we are dedicated to ensuring that the training, deployment, and return of our nation's military servicemen and equipment is successfully accomplished. Shaw E & I's support services include properly equipping each soldier for deployment, shuttling deploying soldiers, refueling military aircrafts, assisting in the deployment of numerous Army Reserve and National Guard organizations, repairing equipment such as heavy equipment

*Shaw repairs tens of thousands of roofs in Louisiana in response to Hurricane Katrina.*

transporters and armored vehicles as they return from Iraq, shipping equipment to armories, and preparing ammunition for both overseas shipment and Fort Benning training exercises.

*Shuttle Engine Test at Stennis*

### *Remediation & Environmental Services – Formerly Utilized Sites Remedial Action Program (FUSRAP), Nationwide*

Shaw E & I has been a dedicated partner in assisting USACE in identifying technical solutions and generating innovative approaches that increase program efficiency and successful cleanup of sites contaminated with radioactive waste as a result of the nation's early atomic weapons development program. Shaw E & I teams provide site characterization, remedial design, regulatory and project planning, project management, and guidance of site activities at several locations nationwide. The following locations comprise our involvement with FUSRAP:

- Ashland 1 & 2– Tonawanda, NY
- Colonie – Colonie, NY
- Linde – Tonawanda, NY
- Maywood Chemical Superfund – Maywood, NJ
- Shattuck Chemical Superfund – Denver, CO
- St. Louis Airport – St. Louis, MO
- St. Louis Downtown – St. Louis, MO

# Dewberry

## Corporate Sponsor Firm Spotlight

By providing excellent client service and efficient project delivery, Dewberry has achieved a reputation for high quality work with its many U.S. military and federal clients. Since 1956, Dewberry's headquarters has been located in Northern Virginia, and even today, the majority of the firm's 1840 employees work out of Dewberry's Washington, DC, metropolitan area and Baltimore offices.

Dewberry's core services are:

- **Architecture/engineering/planning**  
Dewberry's clients recognize that the firm can achieve design requirements for a wide range of project types; the firm's experience includes all facets of planning and design for facilities and infrastructure, environmental compliance and security.
- **Program management**  
Dewberry provides an integrated, holistic approach that encompasses total facility life cycle management. It allows clients to augment existing staff as required in asset management, program development, design and construction management, facilities and energy management, acquisition strategies and contracts management services.
- **Disaster preparedness, response, recovery and mitigation**  
For more than 20 years, clients have depended on Dewberry's emergency management services. As one of the largest contractors to FEMA, Dewberry provides pre- and post-disaster assistance to federal, state and municipal clients nationwide.
